

Bridport Area Neighbourhood Plan

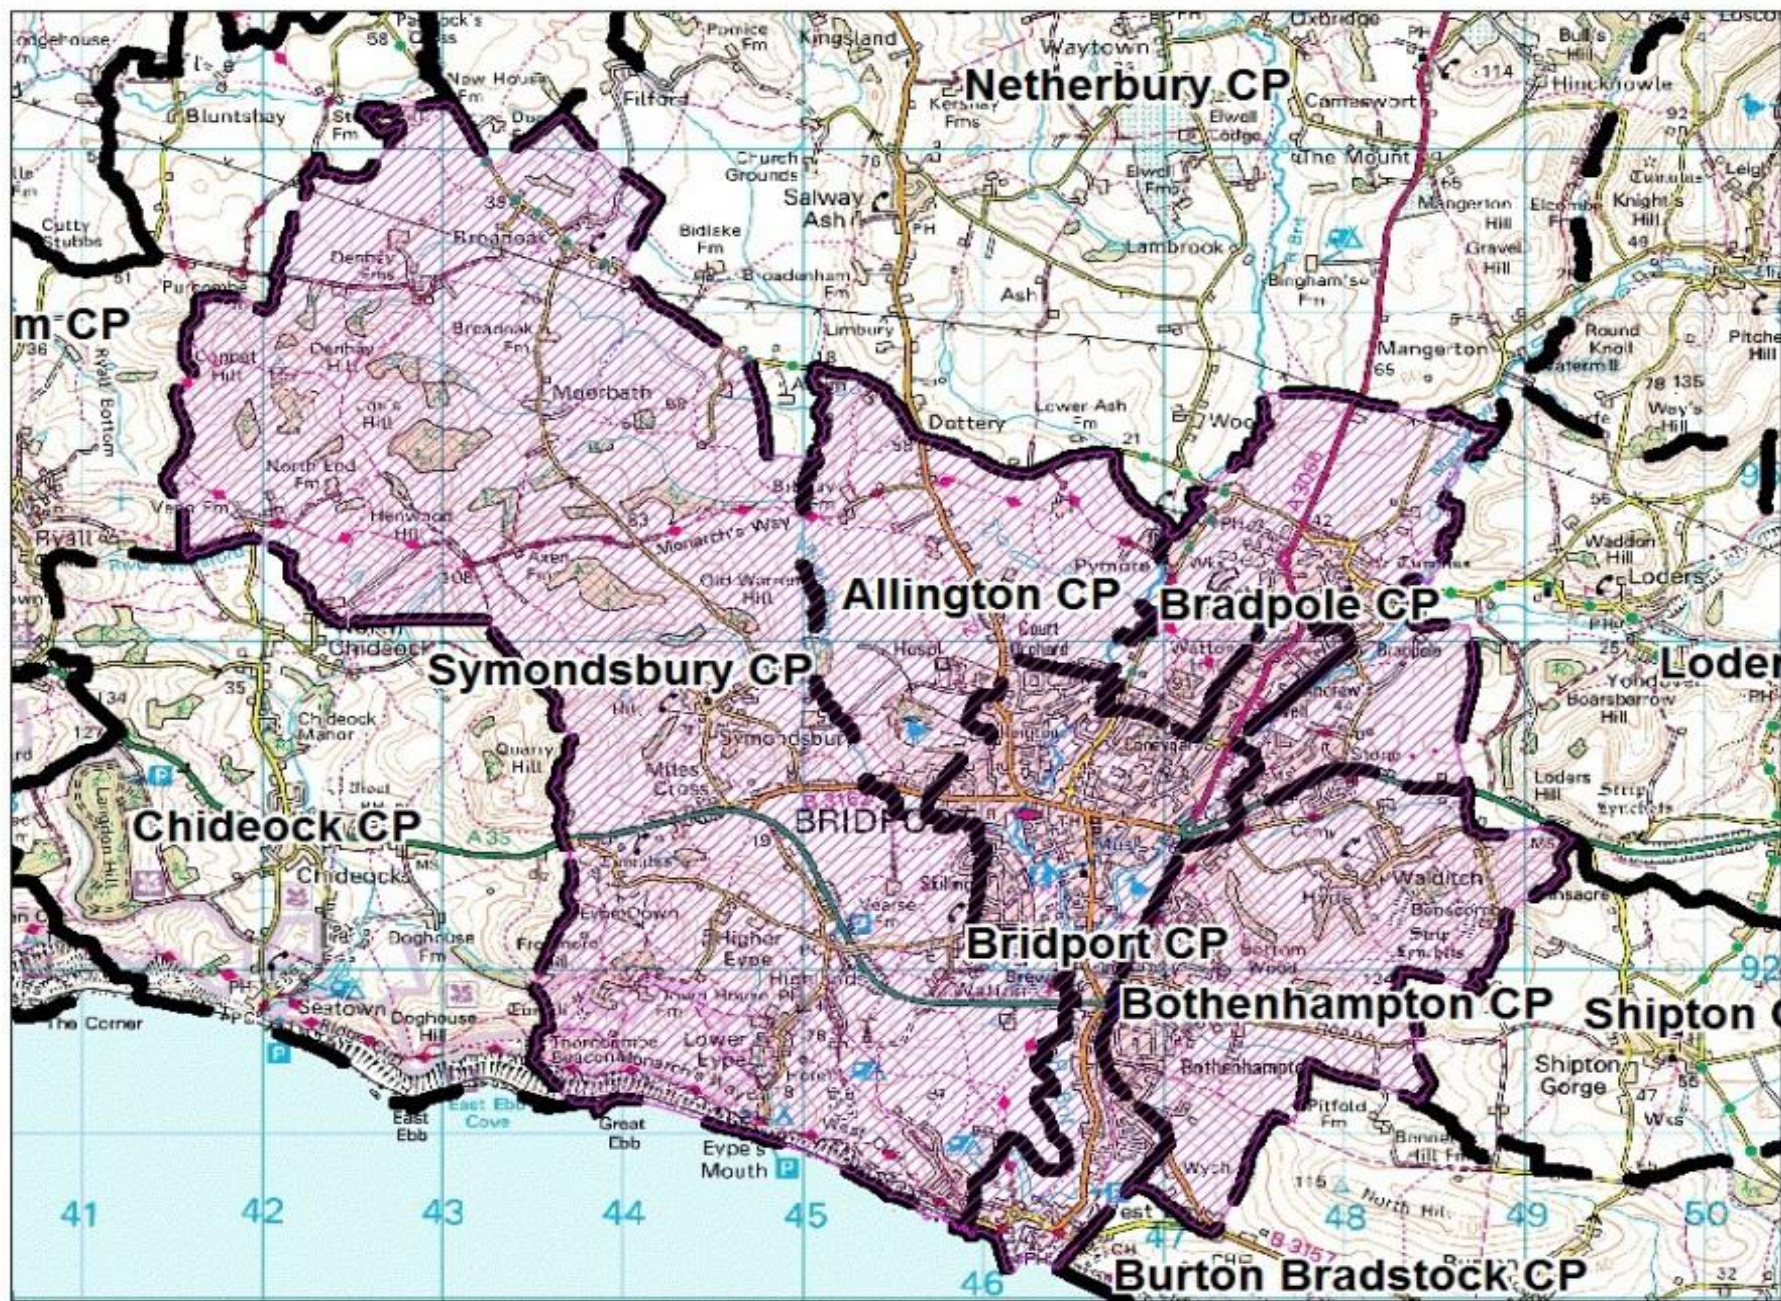

Presentation to
Colfox Academy House Assemblies

Raja Jarrah, November 2016

What is the Neighbourhood Plan?

- A statement by the people of Bridport and its surrounding parishes about the kind of place we'd like to become over the next 10-15 years - a vision for 2030;
- written by volunteer citizens;
- a new process that's never been tried before.

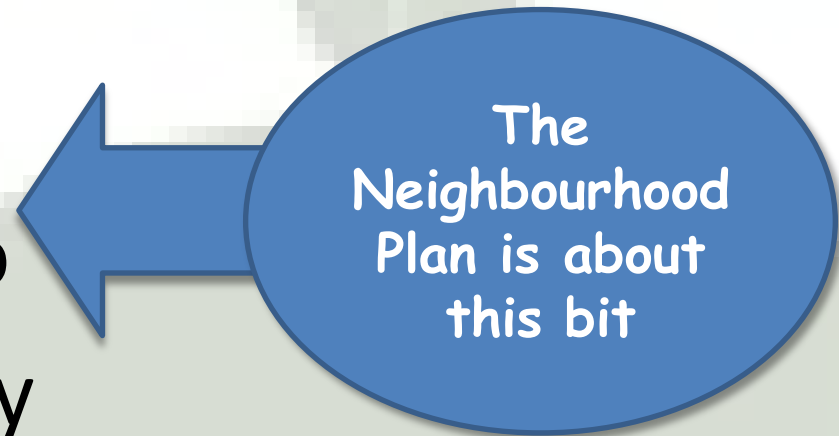

What has that got to do with "Democracy"?

Democracy =

Choosing our leaders

+ Telling them what we want them to do

+ Making a fuss if they don't do it

What's in the NP

local economy

housing

community facilities

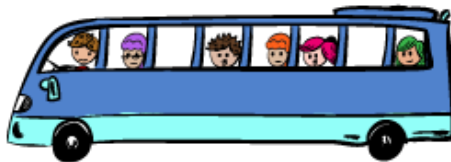

environment

... and anything else that matters to us.

transport

What's in the NP

local economy

housing

community facilities

This includes you!

environment

... and anything else that matters to **us**.

transport

With a brilliant Neighbourhood Plan, we could have

- the right sort of **houses in the right places** which people locally can afford;
- lots of **interesting jobs** in the area;
- **great facilities**, green spaces and other recreational areas;
- energy savings and new ways of **living more sustainably** in a world with climate change.

...and if we have a rubbish one, we might get the opposite!

The NP is being written NOW

- It will go out to consultation to everyone in the area over the next few months.
- **NOW** is the time to think about it, and make sure your views are heard.

Three things you can do

- 1. Talk about it** with your fellow students, friends and family. What would you want this area to be like in 2030?
- 2. Make sure your family responds** to the public consultation – when it comes through your letterbox or your email inbox, don't junk it!
- 3. Take part in the on-line survey** for young people which we will be launching soon.

How can we hear you better?

If you have any ideas on good ways to hear the views of young people and put their ideas into the NP, please let us know.
